The Institute for Systems Biology indirect cost rate agreement dated 08/04/2014 is still in effect. Even though the provisional rate effective period ended 12/31/2014, the provisional rates of 83.00% for Organized Research and 40.00% for Other Sponsored Activities may still be used. You have submitted an indirect cost rate proposal and we are in the process of negotiating the final rate for 2013 and updated provisional rates for 2014 and 2015. As soon as that process is complete, we will issue a new rate agreement with the final indirect cost rate for 2013 and updated provisional indirect cost rates for 2014 and 2015. Once the new rate agreement is issued, it will be in effect until superseded by the next year's rate agreement. Our intent is for the rate agreements to be used until amended (until a newer rate agreement is issued).

Subject: RE: ISB Rate Agreement Still in Effect Pending Completion of Our Review

Janet:

Since we are already in our CY/FY 2016, we are still getting questions from prospective funding sources about the

status of our rate agreement. If possible, please amend the statement below to encompass 2016.

Thanks.
